Expectations / Scheduling	
Initially you may see an increase in pest activity as pest populations are disrupted. Within a month you should see activity decline as products take effect. Over time, pest levels will continually decrease as regular services are performed. Regular service visits are marked with an "S" below.	After the first visit, Green Shield Pest Solutions will return for a two-week follow up to inspect/treat the interior for bed bugs. After treatment will continue every 120 days for one year. We will contact you a few days before each visit by text and email.
